## President's report A.K.A.

# The Thomson Tribune

Although it pains me to say it, Happy October Legends! I really love the fall with the beautiful colours, crisp mornings, and warm afternoons, but it sure does pain me that the end of our driving season is upon us. The IMM and High River show's have now come and gone, and we look to park the ponies for a long winters slumber once again. I like to think, or at least I tell myself, that it's better this way as if we were able to drive them year around, would we appreciate them as much? Of course we would...stupid snow! All is not quite lost yet tho, as the forecast for next weekend and our upcoming Lakeview poker run is fantastic! Don't lock the keys away yet!

This is also the busiest time for AMAC as it's when the majority of planning for 2024 will be done, and as you are already aware, it's going to be an incredible year! With 3 major milestones coming in 2024, there is definitely going to be a lot going on! Can you really believe that it was 60 years ago that the Mustang went into production and continues to this day? That is absolutely remarkable, especially with very few nameplates being able to come

even close. There is so much debate as to which vehicle has been in production the longest, but when looking at it, the Mustang is one of the very few that did not have a hiatus for any reason. The current "longest produced" vehicle in the world at 83+ years is the Chevrolet Suburban, but even it had a manufacturing halt from 1942-1946 due to WWII. As we all know, the Corvette started in production in 1953, but with no 1983 model year produced, I don't think it counts! Fast forward to 2024, and the Mustang is one of the few that remain, and I might say, doesn't look a day over 40! For the ultimate Blue Oval fans tho, the F series has been in production since 1948, and 2024 will be the 76<sup>th</sup> year of production. Remarkable!

Both AMAC and the IMM will be entering milestone years at 40 and 45 respectively. Again, remarkable! As many of us would not have been old enough in 1983, I find it amazing that both these institutions were created a mere 15 and 20 years after the mustang was created. If you look at the cars that started production in 2004, I'm not certain that many will have clubs established to the

preservation and appreciation of such models 20 years later, however, I could be very wrong as 2004 brought some pretty exciting cars such as the Aston Martin DB9, Koenigsegg CCR, and the Dodge Ram SRT10. And the Ford Freestyle hahah. Anyone think there is a Ford Freestyle club out there somewhere? I think of all the hours/days/weeks/months/years that have been invested in creating and continuing the AMAC and the IMM club and committees over the 85 years collectively and it's absolutely fascinating honestly. My hats off to everyone that has volunteered and contributed their time and efforts, not just this year, but also in the many years past.

So, with that all being said, hang on to your hats as it's going to be a whirlwind of a year, and will be upon us sooner than you expect. We just must sit through a short (fingers crossed) snow season first! Get those winter projects cued up, and hunker down til spring, well at least after this Saturday!

Take care everyone and see you all soon!

Scott

# Metro Ford Tour

Big thanks to Reg and the folks at Metro Ford who gave us a tour of their new state of the art facility! I can safely say everyone was truly impressed.

Also, a huge thanks for their very generous sponsorship of IMM45!

*I have been trying to decide on a new vehicle for some time now but every visit to a dealership just reinforced my thoughts about how much I hate the buying process and dealing with car sales people.*

*The visit to Metro Ford and their new building was great. It gave me a chance to look at vehicles without someone looking over my shoulder every minute. After the presentations were over, I had a chance to talk with Sunny Brar the General Sales Manager about what I was looking for (Bronco or Tremor) and why I liked both vehicles. Sunny told me he had a few trucks coming in a few weeks and would call me when they landed. Fast forward to after IMM and I am more confused than ever on which vehicle I really wanted/needed. Both the Tremor and Bronco had pros and cons and I could not make up my mind. Sunny called and said he had a couple of Tremors show up and we made an appointment for me to come in and look at them.*

*At the appointment Sunny took the time to sit and listen to my pros and cons list for both vehicles. At the end of our long discussion he said "Vince, I think you will be happier with the Tremor". He took me outside to look at the Tremor he felt was what I was looking for based on our conversation at the AMAC visit. It was perfect. He handed me over to Jamar (Product Advisor) to do the test drive. When we got back he provided me with all the information about the price of the truck and all the discounts that were available to me including the AMAC discount. I told him I would get back to him the following week with my decision.*

*Once I made the decision to buy the Tremor, I called Sunny to set up a time to do all the paperwork. Everything was ready for me when I arrived. We added a few accessories then I was passed off to Jenn Hill the Finance Manager. Jenn was awesome. There was no pressure at all to do any of the "extras" and I was out of her office in under 15 minutes. She called me at home about an hour later to tell me everything was a go and we set up a time to pick up the truck.*

*Monday morning could not come fast enough. I showed up at the dealership and there was my truck in the delivery center ready for me to drive away. Jamar and Sunny were waiting for me and Jamar gave me the tour of the truck and made sure everything with the Ford Pass was set up and working. I signed a couple of things with Jenn and away I went.*

*Overall I would give this experience a 10 out of 10. There was no pressure from anyone at the dealership and I have received calls already from them checking in to see how I am enjoying my new truck. If you are thinking about picking up a new or used vehicle, I can't see how you could go wrong making Metro Ford your first stop. Just tell them Vince sent you.*

Hey everyone, I am looking for submissions for the club Instagram account. Looking for photos of members cars at shows, or just out and about. If you have a story to go with it great, if not, no worries. The intent is to start a recurring, year round digital car show that shows off our members cars. Multiple submissions are welcome, though only one car will be posted at a time. I am also willing to meet up to take new photos if someone is looking to get some new ones for this summer. Please send submissions to [abmustang-social@gmail.com](mailto:abmustang-social@gmail.com). Instagram account can be found at <https://www.instagram.com/abmustangsocial/>

# IMM Calgary Update

Hey Legends,

AMAC made their presentation in Montana on Sunday night at the banquet, and it was very well received. We actually crashed the hotel website! The host hotel and show site is the Deerfoot Inn and Casino, info for booking is on the previous page. The host hotel currently only has suites left, however the secondary hotel has rooms available, and it is only a four minute walk and it includes breakfast!

Registration opened right after the banquet on Sunday, and to date we have 172 cars registered. Almost everyone has bought banquet tickets, we are over 50% sold. If you want banquet tickets you should get registered as soon as possible as we do have a limit based on the event centre size. Also make sure to get your tickets to the 60's Stay Groovy party, so we can celebrate the decade that brought us our favorite pony car, I guarantee you this party will rock!

We want to once again thank the sponsors that have stepped up so far, these include Metro Ford, Lakeview Automotive, The Mustang Shop, Dale Adams, Western Motor Sports, Legacy Speed & Body, Wright Restyling and Lift King.

Gary & Jim continue to work on the show site layout, car classes, vendor spots etc. We currently have 68 car classes, these will change as registrations come in, as we will not keep a class for only a few cars.

It has been an exciting few weeks for our committee, and we are well on our way to hosting a great show! We will be looking for volunteers as we get closer in.

I will try and keep everyone updated and informed! Look for us on FB at **International Mustang Meet 45**. If you have questions please email us at [imm45calgary@shaw.ca](mailto:imm45calgary@shaw.ca)

As the sun came up in High River AMAC members were already hard at work. I did not get pictures of all our volunteers, but AMAC says THANK YOU! You know who you are, many of you worked on your feet for most of the morning.

**Mustang Alley at the High River show was THE place to be! We had a very busy street full of beautiful ponies!**

**Gary and I were very excited to receive an award for the Sponsor Pick from Haggerty. The trophy is truly one of a kind!**

What a fantastic day. You guys did an awesome job 🙌

Delivered

**Amanda** it was a fantastic day!!

But and a really big but, we could not of had that fantastic day without the help of the fantastic Mustang Club from Calgary. Your Club just made it go so much smoother. I thank you and your team personally and I heard so many comments from our team about how thankful you guys where here to help out. We will look forward to see you next year. Keep us in mind next time you need a few volunteers for any of your events.

## **SEARCHING FOR:**

**1968 Mustang Coupe** - trying to locate my old 68 Mustang GT Coupe, Blue with Blue interior, 390 S-code, 4-speed. I sold it in Calgary in 1981. I am not looking to buy it, just asking for info on where it is now. Thanks. Contact Tom, email [nascarmcury@hotmail.com](mailto:nascarmcury@hotmail.com).

Looking for owners of a **1971 Green Ford Mustang Mach 1** - Last known sale by Larry Alfred Joevenazzo (Calgary) I'm trying to locate the current owners of the car to either buy it if it's unrestored or give away all the original documentation tied to the car. My dad was the original owner, went to SAIT and had a best friend who bought his car around 1984. Rally-racing Green exterior with green interior. Well unfortunately Larry sold my dad's vehicle to someone else before making his final payments. No, I'm not looking for the money. Larry committed suicide shortly thereafter and well it was just left at that. He was my dad's best man. The car hasn't been registered in a long time and I've always wanted to locate the Mustang. It had a 351 Cleveland engine. My dad bought it brand new in Salt Lake City, Utah, USA. I have all the original factory documentation. If I could find it and buy it to restore for my dad, great. If it's already restored, then I have all the incredible documentation and tags and would give to the current owner. The VIN starts with 1F05M22xxxx. Please email [emeraldt@shaw.ca](mailto:emeraldt@shaw.ca).

## **PARTS FOR SALE:**

- **1968 Mustang parts** - Complete floor console, including dash bracket. Black. Also complete Automatic shifter with new bushings. \$950.00 OBO. Instrument cluster with brand-new black camera-case bezel. Has after-market tach in clock space. Will include the OE clock as well. \$400.00. Contact John at [jwallis693@gmail.com](mailto:jwallis693@gmail.com).
- **Unique "Summer Edition" rear deck spoiler** for the 1990-93 Limited Edition Mustang convertibles. Includes 3rd brake light. In grey primer. Asking \$175.00. Call or text Doug at (403) 479-7228.
- **For Sale** - Have a BBF **"DOVE" 429** engine. A fresh rebuilt long block with gaskets, **still in the crate**. Would be great installed in a period-correct Mustang, Torino, or Mercury Cyclone for example. Also have some **factory aluminum valve covers supposedly for BB Mustang** (to clear the brake booster). Contact Tristan at (403) 998-8000.
