## President's report A.K.A.

# The Thomson Tribune

Happy 2026 Legends!

While changing the calendar is always refreshing, the start of the New Year in these cold, dark months is not. We are on the upside however, with daylight getting longer slowly day after day, and we cannot really complain about the weather too much as it has been mild and dry thus far. Still, I yearn for the day when we can fire up the Pony and go for a rip!

First up on the roster for 2026 is the 58<sup>th</sup> annual World of Wheels, March 27-29 at the BMO Centre. The theme has been picked, and the construction of the display is well under way. Once again, Jim Bateman and Russ Grey are leading the charge and hosting the builds at their garages each weekend. Hat's off to these two for sacrificing their space, time and tools! For those involved, you know the theme, but for those that aren't – you're going to have to come out and see it live at the show! Once again, AMAC is going big in our quest to take the Club Challenge trophy (and the \$\$\$) home once more! Emails will be going out soon to enlist volunteers to come to help with set-up,

tear-down or watch the cars while engaging with the public while the car owners can step away for a bite to eat etc.

Fast forward to the hopefully warmer months, April 17<sup>th</sup> is once again national Mustang Day, and we will be hosting a cruise on Saturday April 18<sup>th</sup> with all the other registered clubs to celebrate the day the Mustang was first released for sale way back in 1964. Cruise details have not been finalized yet, but it will be a location with good food and a large parking lot! We will also be doing Safety Checks on our cars on this day to participate in the SVAA's drive to ensure that our antique, collector, vintage and specialty vehicles are as safe as possible. These are not inspections, just a quick safety check - brake lights, signals etc. The more safety checks we conduct gives AMAC more chances of receiving discounts on our club and directors' insurance. For those that would like more information, follow the link below.

[Safety | Speciality Vehicle Association of Alberta](#)

The window clings for NMD have been ordered, and this year in

recognition of the 30<sup>th</sup> anniversary of the 1996 Mystic Cobra, they are blue/purple/green! But you must be there to get one, and there is only 49! For those that are looking for NMD apparel, or more information on NMD, follow the next link below. They are offering different colors and styles this year!

[National Mustang Day - HOME](#)

Saturday, July 18<sup>th</sup> is the date for our 42<sup>nd</sup> Annual Presidential Show and Shine! It is once again being hosted by Royop in Township in the community of Legacy. With great access to food, fuel, car washes, and beer – it is a most excellent location! It is also 4 blocks from my house, and how else could I get 5 vehicles there? Hahah. Look for more details as we get closer, but we will be going back to our roots with a more casual theme or concept. In the deluge that was the early summer of 2025, we managed to get a huge break from Mother Nature and have about 12 hours of glorious sunshine for the show, let's hope that she will be just as cooperative this year!

*Continued...*

## The Thomson Tribune continued...

As you may have heard by now, AMAC will be assisting Branch 285 of the Royal Canadian Legion to host their 6<sup>th</sup> annual Hoods on Horton show. As many of you have been to this show, you will know how big this show is, and the importance of the cause. The original organizer of the event has fallen ill and can no longer assist in the humungous task of organizing a show of this magnitude, and the other Legion volunteers are overwhelmed with the task due to not being familiar with a car show event. That's where AMAC comes in! We will be selecting a subcommittee from our executive team that will be organizing this event for them, primarily focusing on the exterior/show area. The Legion volun-

teers will be dealing with operations within the building, such as food/bevvies etc. As this show has been created and continued as a fundraiser for the Legion and Veterans, it will continue to be as such, and AMAC will not be expending or receiving any funds. There will be lots of information coming in the next few months, so be sure to keep your eyes peeled, and set Sunday, August 23<sup>rd</sup> on your calendars!

So, in 2025, many of my newsletters described the beer to task relationship of replacing the radiator support in our 1968 Coupe. At first, I figured it was easily a 12 beer job, using a beer every ½ hour as a measure, totaling about 6 hours, (obviously not all at one time!) Well, I either severely overestimated my abilities or underestimated the size of the task as approx. 127 beers later,

it's finally done! Please know that while it may seem extensive, it was over a period of 1 year and 4 months. Many of those beers were also spent scratching my head trying to how to put it all back together again after forgetting how some pieces were attached or trying to figure out how to actually attach them properly! Lol, and like usual, sometimes the beer was drank and no work was completed at all! But anyways, she is, for all intense purposes, back together and running again. So much so, I almost took it for a drive yesterday afternoon (to the beer store) but the pile of snow in front of our North facing garage would have been an obstacle that a lowered, two-wheel drive Mustang could not have conquer without a winch...Sigh. Come on summer!

# Wear a Mustang to match your lipstick.

**Win a 1967 Ford Mustang to match Tussy's great new revved-up shades, and add miles to your smiles.**

Put on your brights with Tussy's new high-gear lip colors: Racy Pink. Shimmery Racy Pink Frosted. And Defroster.

(Defroster pours on melting beige lights when you wear it alone, or as a convertible top to another lip color.)

And there's a Mustang for three lucky winners, in the Tussy shade you choose.

Nothing to buy. Just see the colors at any store that sells Tussy.

Then, mail your choice on a plain piece of paper (with your name and address) to TUSSY MUSTANG-TO-MATCH SWEEPSTAKES, P.O. Box 468, New York, New York 10046. Be one of the only three girls in the world with a Mustang to match your lipstick.

And smile.

RULES—Entries must be postmarked by December 15, 1966, and received by December 22, 1966. Enter as often as you want, but mail each entry separately. Free entry blanks also at your TUSSY Dealer. Selections made in random drawings by independent judging agency. Winners to be announced by mail. No substitutions. Sponsor may elect to appoint parent or guardian to act for prize winner if winner is a minor. Employees of Lehn & Fink and their Sweepstakes agencies not eligible. Void where prohibited by law. All Federal, State and Local laws apply.

Dear Friends,

There are so many worthy charities, thank you for your kindness in selecting Veterans Food Bank of Calgary for your donation of 44 lbs of food and \$1,200.00 in monetary donations. Canada Food Banks estimate \$3.52 per pound, your donation equates to \$154.88 of food on our shelves. Thank-you so very much! This year we've been inundated with requests so it will go a long way.

We're so grateful for the partnership with like-minded people such as yourselves, demonstrating kindness to others. We couldn't serve our clients without you,  
**THANK YOU!**

Wright Restyling provides solutions to anything inside the door handles of any vehicle. We design and install Katzkin leather interiors with custom embroidered logos. We design, install and tune small to large audio systems. Integration to factory systems has become very important in today's tech rich vehicles. Our team is able to retain key factory systems, remove factory audio filters and provide a clean unfiltered baseline for audio upgrades. We can custom build sub boxes, consoles, door panels and speaker panels. With these services blended together, Wright Restyling can upgrade an entire interior with any of the desired comfort features available.

Feature upgrades available: Heated / cooled seats, remote starters, GPS tracking, laser and radar defence, interior lighting, blind spot, backup cameras, parking sensors, 3D printed custom panels, CNC aluminum and ACM.
